Fix

Create space on your desk with a CPU holder

BAKKER ELKHUIZEN

Work Smart - Feel Good

Prevent dust accummulation at your workspace with a CPU holder

A desktop computer (PC) is often on the desk, next to or under the monitor. Or simply on the floor. This can cause a lot of dust to accumulate.

With a CPU holder you keep your computer off the ground, protecting it from dust, dirt and damage.

CPUs can inadvertently function as a "vacuum cleaner" attracting dust which accumulates on the various components of the computer causing problems with heat dissipation.
