Advanced features and more:

Sharing Function

Share your CubiTag with your someone you trust so that they can help find your lost items.

Path History

CubiTag will automatically record the last location and time it was connected to your item on the map.

In/Out Range Alter

Near or far, CubiTag keep tabs if you've left something behind or if the item is approaching.

Motion Alert

The only tracker with a built-in motion sensor for added security. Get notified on your phone when any movement of your belongings is detected.

Smart Home Integration

Integrated with smart home devices like Amazon Echo and other smart home devices to help you find what you're looking for if you're too busy.

Community Search

Mark your items as lost and get updated by the CubiTag community if your lost item is found.

FAQ

Q: What are the advantages of Bluetooth 5?

A: It provides a longer range and faster data speed, but consuming less power.

Q: Is there a subscription fee for the services?

A: There are absolutely no monthly fees. All features are free of charge.

Q: Will CubiTag drain my battery?

A: CubiTag automatically switches to power-saving mode when no motion is detected.
